Popular Mechanics

1971 Index

POPULAR MECHANICS INDEX—1971

This Index covers every article that appeared in the 1971 issues of *Popular Mechanics*, including the short items in monthly columns such as "Homeowners' Clinic" and "Science Worldwide." (For the convenience of our advertisers, we publish regional editions of *PM*. On rare occasions this may result in the deletion of a minor article in a certain edition.)

The Index is thoroughly cross-referenced. For example, you will find an article on how to build a coffee table listed under "Coffee table," "Tables," "Furniture," and "Woodworking." Broad categories such as "Woodworking," "Aviation," "Fishing," and "Pollution" enable you to locate all articles on a general subject published throughout the year.

IMPORTANT NOTE: *Italicized entries* indicate articles of a how-to nature—how to make, build, maintain, repair, use, etc. Entries in Roman (regular) type are for articles of general information, covering new products, inventions, events, achievements, etc.

Both how-to and general articles on the same subject are indexed under one heading. Thus under "Amplifiers" you will find an *italicized entry for an article on how to build a harmonica amplifier*, as well as an entry in Roman type for an article on new hi-fi amplifier kits on the market.

An Index entry marked OC-144 indicates the article appeared on Page 144 of the October issue. The following abbreviations are used for the monthly issues:

JA	January	JY	July
FE	February	AU	August
MR	March	SE	September
AP	April	OC	October
MY	May	NO	November
JE	June	DE	December

Indexes for earlier years are not available at this time. Indexes have been scheduled for future years.

To use your Index as a shelf binder: The cover of the Index is made and folded so that it exactly encompasses the 12 issues of 1971, thus providing an attractive shelf binder. To use your Index as a shelf binder, face the shelf and insert the *short tab* of the Index on one side of the accumulated issues, and the *stapled fold* on the other side (see illustration). If you prefer, of course, the Index can simply be folded flat and filed on a bookshelf with the 1971 issues of *PM*.
